TAILS & TRAILS PAWLICIES

- All dogs must be spayed or neutered to be in Park playgroups. Any dog that is not spayed or neutered will be walked solo or with a small pack. All dogs must be up to date with vaccinations before joining a pack. Puppies will be walked solo until they have all of their shots.
- Name recognition and willingness to come when called are very important to ensure safety and control during walks. Please make sure your pup comes when called.
- Aggression towards humans or other dogs will not be tolerated. If any dog is found to have aggressive tendencies, we will find another suitable situation for them to get the exercise they need.
- Please provide 24-hour notice for cancellations, unless there is an emergency.
- If your dog has allergies, please let your walker know.
- Please let us know if your dog is ill, as sickness spreads quickly through a pack.
- Dogs must have proper tags if they are going to the park.
- Pickup and Drop-off times may vary. We always do our best to accommodate your work schedule, but the safety of our Packs and Leaders (as well as the amount of exercise your pup receives!) is our #1 priority. Please feel free to text your walker with any schedule changes or additional walks needed.
